What is Managerial Finance?

Managerial finance, also known as corporate finance, focuses on the financial activities necessary for running a company efficiently. 3. Activity-Based Costing (ABC)

ABC assigns costs to products based on the activities required to produce them, offering more accurate cost information, especially in complex environments.

4. Standard Costing

This method involves setting predetermined costs for products or services, which are then compared with actual costs to analyze variances.

Budgeting and Forecasting

The Role of Budgets in Management and Cost Accounting
